## WELCOME LEARNERS!

(and those who bring, wait, encourage and pay)

Learning together;  
making the difference  
ABN: 21 793 095 452

It's great to have you back or to meet you for the first time. No matter what stage of the process you are in, we hope that this term will be a time of encouragement for you as you see that learning together does make the difference.

As you might know, Laurie and Denise Quarmby have taken over the helm this term. We hope to be able to steer in the same course as John & Yvonne. We are really grateful for their support and guidance. Many will be very pleased to know that John is continuing with us in tutoring HSC students on Tuesday afternoons.

We are excited by the encouraging words we have heard about the dedicated, enthusiastic and highly effective tutors as we have been enrolling students. Annette, Libby & Tammy will be joined by Robyn this year working with the Primary students. Diane and Bronwyn have retired after many faithful years.

There is also a great team for the high schoolers. Leonie, Tony, Joanne & Pat are English buffs, John, Medhat and Laurie have maths covered. Micheal will be sharing his passion in the science area.

Jan and Donna are our 'ladies at the desk' who keep the program running! You'll find that they are full of knowledge and willing to help you with the important things like 'where is the coffee?' and 'where are the toilets?'

All tutors will be having their photos updated for the wall. The suggestion was that we have a 'photo booth'! Watch the wall in the coming weeks. Perhaps your tutor will have grown a moustache!

This term we will be having the 'Learning Masters' boards available for certificates for those who shine each week. We expect it to be full very soon! And yes, we will be continuing the tradition of the draw for 2 movies tickets each week. Tickets to the draw are given by tutors to those who have made it to the level of 'Learning Master'. The draw will be on Friday afternoon so check the board for the winner each week!

### Who are Laurie & Denise?

Laurie has enjoyed his own learning experience and has been studying or updating his qualifications most of his life. You'll see just some of his formal qualifications on the wall. He has taught students from high school to seniors in the public and private education system both here and overseas.

Denise has an eclectic mix of skills having studied social science, education and welfare. Caring for children in an international school was a wonderful experience. The last few years she has been working in Publishing and now has her own small design business, 'Shaking Hands'. (Anybody for an invitation?)

We look forward to meeting you soon. Perhaps we can make you a coffee? Please feel free to talk to us about any aspect of tutoring with Master Learning.

Laurie & Denise Quarmby
